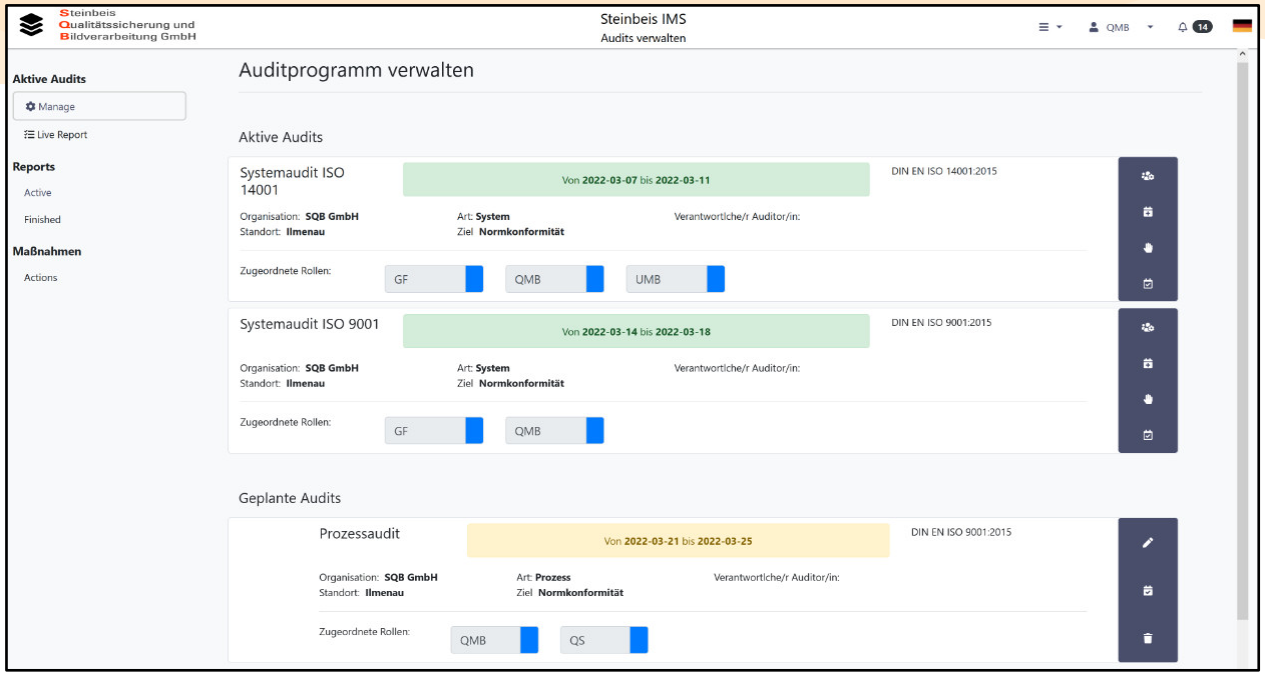
SQB AUDIT MODULE
Audits for integrated Management systems



INTEGRATED QUESTIONNAIRE

Up to 50 percent reduction in effort thanks to the integrated audit questionnaire.

REQUIREMENTS OF THE MOST IMPORTANT MANAGEMENT SYSTEM STANDARDS

ISO 9001	ISO 14001	ISO 45001
ISO 13485	ISO 50001	IATF 16949

VDA and other management standards.

AUTOMATIC MEASURE TRANANCE

Automatic action tracking with scheduling and responsibilities.

WEB-BASED

With simple installation on the company server, access to the Steinbeis Audit Module is possible from all linked computers.

AUTOMATIC CREATION OF THE AUDIT PLAN AND AUDIT REPORT

Audit plan and audit report are created automatically and can be exported as a PDF file.

MANAGE AUDITS

Audits can be paused, extended or stopped at any time.

AUDIT PROGRAMME

Structured overview of all active and planned audits.

LIVE REPORT

Evaluation can be viewed live by auditors at any time, even if the audit has not yet been completed.

Steinbeis
Qualitätssicherung und
Bildverarbeitung GmbH

AUTOMATIC DIVISION OF THE AUDIT QUESTIONS

Audit questions are automatically assigned to the relevant functions/persons.

LANGUAGES

The SQB audit module can be used in several languages.

AUDIT MANAGEMENT WITH NOTIFICATION SYSTEM

Automatic notification to persons, auditors and responsible persons for action tracking.

RIGHTS MANAGEMENT

Several auditors with individual rights for audits can be created.

The SQB Audit Module offers you a simple and practical module for digitising and systematically managing your audits.

In addition, a document management module with many automatisms is available to you. For example, automatic versioning, archiving, rights management and a notification system are implemented.
